OVERVIEW

Every deliverable is prepared in the industry-standard formats used by design engineers, quantity surveyors and asset managers across the UK. Files are tied to OSGB36 or your project grid, named to your document control conventions, and delivered securely.

WHAT'S INCLUDED

Standard Formats

DWG, DXF, LAS, LAZ, GeoTIFF, PDF and OBJ — no proprietary viewers.

CAD & BIM Ready

Drops straight into AutoCAD, Civil 3D, Revit, MicroStation, OpenRoads.

OSGB36 Or Local Grid

Coordinate systems configured to match your project.

Secure Cloud Delivery

Time-limited download links plus a persistent web viewer.

API & Custom Integration

Direct delivery into your CDE or asset management system.

Document Control Friendly

File naming, revision codes and metadata aligned to your standards.

BENEFITS TO YOUR PROJECT

- Zero wrangling time — files open in software you already use.
- Straight into design — data in the working model in minutes.
- Consistent, predictable handover across every visit.
- Secure and auditable — controlled access with full audit trail.

IDEAL FOR

CAD/BIM integration, CDE handover, asset management, document control.
